

DRUPAL DEVELOPER

ALL GENDERS | VIENNA | FULL-TIME

BLINKER

We are software partner for customer-centric digital projects. To join our highly skilled team of developers, we are looking for a PHP programmer with a focus on Drupal development. Our team has fun at work which is a guiding principle for us. We believe, only if we do something we enjoy, can we be really good at it.

YOUR TASKS:

- Development of digital platforms and services of our international Drupal projects
- Site building, theming and module development for Drupal.
- Dealing with customer requirements and development of suitable solutions.
- Maintenance of existing and new projects.

YOUR PROFILE:

- Experience with all aspects of Drupal development; modules, themes, forms, entities, config management, admin customizations etc..
- Relevant professional experience in OOP with PHP 7.
- Experience with API based integrations.
- Solid knowledge of version control (GIT).
- Knowledge of front-end development using HTML5, CSS3, JavaScript.
- SysOps experience a bonus.

OUR SUPPORT:

- Independent, responsible working culture with exciting, international digital projects in a creative environment.
- Active know-how exchange within the international open source community.
- Flexible working hours through lived flexitime as well as remote working, offer you the individual freedom you need to develop.
- Fun-filled team activities among like-minded people are at the top of our stack - playing table tennis, nerf gun battles, or at after hours cool-downs; having great times together as a team is our priority.
- Free coffee & fruit, as well as a well-equipped office in a central location are waiting for you.
- What we are particularly proud of: our legendary beach office in summer - we pack our swimming gear & laptops and travel to the beach.

APPLY NOW !

We are looking forward to receiving your resume and read all about why you will be a good fit for us!
