

Product Manager (with UX/Design background) at Journi

Creating print products by leveraging AI.

Do you love to take photos and create memories? Perfect, because that is what we do at Journi. Using the power of AI, the smart algorithm in the Journi apps processes 500 photos within less than 30 seconds to find the perfect photo layout. You capture the moments and we enable you to convert these into beautiful print products within seconds. Whether you want to blog about an upcoming trip, record your baby's first year by creating a personalised photo book or surprise your friends and family with polaroid prints of your favourite shots - Journi's got your back.

The Journi apps are downloaded and used by millions of users worldwide. We have been featured by Apple and Google over 20k times and have been covered by Forbes, the L.A. Times, TNW, Techcrunch and many more.

At Journi, we look for exceptionally motivated people to become a member of our innovative and super international team. People who are passionate about solving challenges and making decisions that impact the success of the company. Sounds like a place for you? Why not send us your applications? ;)

We are looking for a Product Manager with UX/Design Background to bring new ideas, take responsibility and add value to our team in Vienna. Could you be the one to help us push our product(s) further?

➤ WHAT YOU'LL DO

- Work full-time and be part of an experienced & super international team that loves their product
- Take over a leading role as product manager by guiding an interdisciplinary product team
- Know all our products by heart as well as our competitors
- Be part of our OKR process and help define reachable key results
- Define product milestones with other managers
- Draft new features or improve existing ones based on:
 - customer problems and data

- company needs: goals, vision & budget
- market research
- Plan & document those features/experiments
- Work as User Interface & User Experience Designer within your team
- Define actions to support our engineering teams in achieving their goals & coordinate within your team
- Gather technical requirements and estimate efforts together with cross functional team or tech managers
- Ensure & support the successful execution of the product implementation, report about the project status & analyse the outcome

➤ YOUR BAG OF TRICKS

- Passion for mobile & web technology with strong interest in photo/printing/blogging apps
- University degree in UI/UX Design, Product Design, Product Management or similar with 3+ years of experience in a digital product management role
- Proven track record of various designs/projects (**portfolio and/or links to projects required to apply**)
- Mastery of design & management tools: especially Asana, Confluence, Amplitude, Sketch (or similar)
- Self-starter with a strong 'hands-on' mentality & passion for solving problems
- You are an untiring motivator with the ambition to bring out the best in a product team & inspire others
- Ability to lead a team & manage several projects/tasks at once while maintaining a 'big picture' perspective
- You don't shy away from public speaking, have strong communication and presentation skills
- You are constantly learning, don't shy away to give and receive feedback, criticize respectfully, you are self-motivated, hungry to succeed and ready to challenge the status quo
- **You are able to relocate to / based in Vienna - the world's most liveable city!**
- **You are an EU-citizen or have a valid working permit for Austria**

➤ NICE TO HAVE (BUT NOT REQUIRED!)

- Cross-platform design experiences: Responsive Web, Android, iOS
- Ability to pixel-perfectly generate & review product designs
- Experience with Abstract, Zeplin, Lingo & various Sketch plug-ins
- Knowledge of Google's Material Design Specifications and Apple's Human Interface Guidelines
- Experience with market research techniques, customer development etc.

➤ WHAT WE OFFER

A happy team makes for a happy workplace. We wouldn't be able to do what we are doing without our team and that's why we offer:

- A fair salary (incl. additional 13th & 14th salary), for this position we are offering an annual gross salary between €35,000 - €46,200. Our final offer will depend on your experience and qualifications amongst other factors
- A bunch of awesome social benefits (incl. public transport, health insurance, pension fund and access to premium language learning app)
- Daily lunch vouchers and a fully functional kitchen in our office with access to healthy and organic foods (cornflakes, fresh fruit, yoghurt, italian portafilter coffee and a huge range of teas)
- Team activities - [annual team trip](#), board game and movie nights
- Work in a fun, bright and [award-winning office!](#)
- High-end computer (Mac) set-up and tools that will make you enjoy getting your work done
- Flexible working hours (with core hours: 10am-4pm Mo-Th; and 10am-2pm on Fr)
- Opportunity to join a growing team, gain valuable insight into a successful startup and boost your career

➤ APPLY NOW!

We are proud to promote inclusion and diversity at Journi - no matter what race, nationality, gender, religion or sexual orientation - there is always a space for exceptional individuals in our team.

We are looking forward to receiving your application at takeme@journiapp.com, let us know why you are perfect for this role!

Make sure to include your **CV and motivational letter** and any links to past projects you'd like to share. Surprise us with something cool and unusual (all things allowed) and complete the first level of our hiring process. See you at level 2!

➤ COVID19 INFO

Due to the pandemic, all stages of the recruitment process are taking place online. We are still expecting the right candidate to be able to relocate to Vienna for this position and are offering support for this relocation. Where possible, onboarding will happen in the office, given this is safe and follows the current safety regulations in Austria.
